

Building Pavilions (FAQs)

August 2022

Frequently Asked Questions

Q: Where can I get the information on geological survey of the expo site?

A: The Organiser provides the results of geological survey at the points shown in red (no individual survey on each plot). The boring data (geological columnar section) can be obtained from the websites of the Organiser (<https://www.expo2025.or.jp/association/maintenance/news-20200731-02/>) and Osaka Ports and Harbors Bureau (<https://www.city.osaka.lg.jp/port/page/0000506387.html>).

Frequently Asked Questions

Q: Can I start boring survey before the handover of the plot?

A: Individual arrangement is recommended as condition and procedure vary depending on plots. Please ask the Organiser.

Q: When can I start the construction of pavilions?

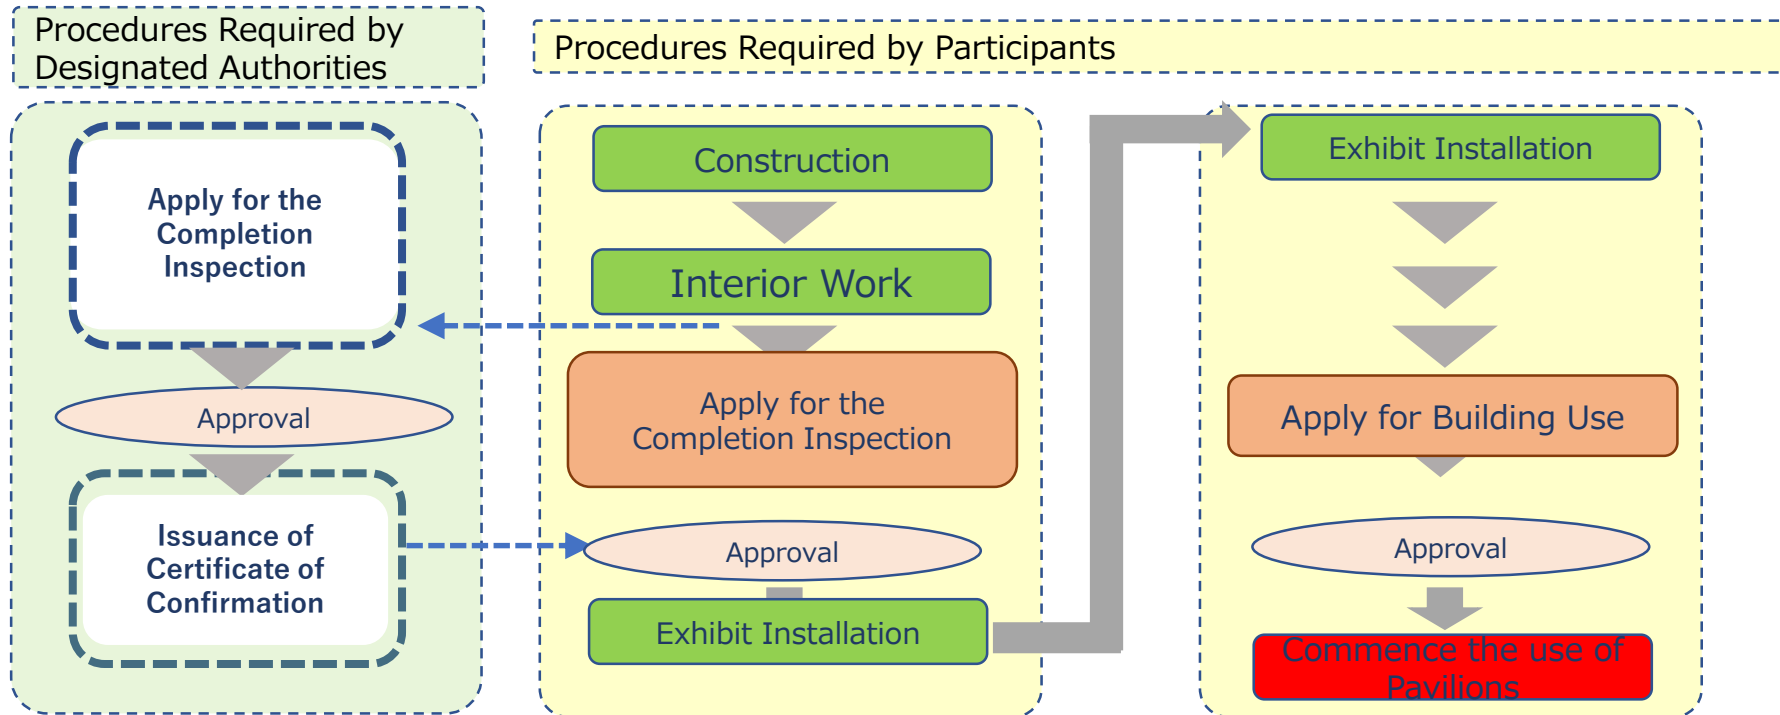

A: The tentative date for the of the construction is April 13, 2023.

Frequently Asked Questions

Q: Can pavilion construction and exhibit installation be performed simultaneously?

A: The guideline states that participants shall complete pavilion construction, including the work on interior, before they can start exhibit installation. To simultaneously perform construction and exhibit installation, the acquisition of “temporary building use” by designated authorities may be required.

Frequently Asked Questions

Q: What does the Organiser do about infrastructure installation during construction?

A: The Organiser plans to set up several water supply locations for participants to use. However, participants are expected to make necessary arrangements for temporary infrastructure until the Organiser completes infrastructure installation.

Listed below are the provisional available dates for infrastructure installation during construction phase.

Utility Services

➤ Provided by the Organiser (through each plot)

Water Supply	March 2025
Sewage (Wastewater)	March 2025
Sewage (Rain Water)	July 2024
